

## Family Energy-Saving Pledge

My family and I pledge to use our **eesmarts** (Energy Efficiency Smarts).  
We will save energy and money at home in the following ways:

- Setting our computer(s) and monitor(s) to sleep while we are asleep or away.
- Setting or programming the thermostat to save energy while we are asleep or away.
- Turning off the lights, TV, fans, and other electronics when we are not using them.
- Unplugging electronics and cell phone chargers when they are finished charging.
- Turning the air-conditioning or heat down when we are not home.
- Looking for products that are labeled with the ENERGY STAR® logo when purchasing a new TV, light bulb, appliance, or other product that uses energy.
- Using LED lights instead of incandescent bulbs.
- Filling up the dishwasher before running it.
- Filling up the washing machine before running it.
- Hanging our clothes to dry rather than using the dryer.

*Please post your family's pledge on the refrigerator or bulletin board so you can be reminded to save energy!*
