

Connecticut Energy Efficiency Board

2022 Public Input Session

Development of the 2023 C&LM Plan Update

Wednesday, July 13, 2022 | 12:00PM – 1:00PM EST

THE MEETING IS WEBINAR ONLY

<https://global.gotomeeting.com/join/305564333>

+1 (224) 501-3412 | Access Code: 305-564-333

The Connecticut Energy Efficiency Board (EEB) and the Department of Energy and Environmental Protection (DEEP) invite you to a Public Input Session for development of the 2023 Update to the Conservation and Load Management (C&LM) Plan. The meeting will be webinar only; webinar information is provided above. Please note: the EEB will hold its July monthly meeting, also by webinar, immediately following the Public Input Session.

Established through CGS 16-245m, the EEB is comprised of 12 voting members¹ representing business and consumer interests as well as state agencies, and five non-voting representatives of the state's electric and gas utilities. It advises and assists the utilities in the development and implementation of Connecticut's energy efficiency and demand response plans.

The EEB and DEEP welcome and encourage input as part of the collaborative process with the electric and gas utility companies, the CT Green Bank, interested stakeholders and the public to develop the 2023 Plan Update. Public input will inform the EEB and DEEP on updates to the C&LM Plan that will take effect in 2023.

The current 2022-2024 Plan and related information may be found online at:
<https://energizect.com/connecticut-energy-efficiency-board/current-and-approved-clm-plans>.

In order to facilitate the meeting and ensure enough time for participants, those wishing to provide comments during this session are strongly encouraged to pre-register by emailing the Executive Secretary at ExecutiveSecretaryCTEEB@theenergygroup.biz. Please include your name, company, and electronic copies of your remarks, and/or a PowerPoint presentation if you plan to use one. A record of public input becomes part of the 2023 Plan Update itself. Therefore, it is important that commenters provide written input, preferably in advance of the session. Presentations during the Public Input Session should be no longer than seven minutes.

¹ With the passage Public Act 21-139, two new Board members representing municipalities and low-income customers will be appointed in the next few months.

https://www.cga.ct.gov/asp/cgabillstatus/cgabillstatus.asp?selBillType=Bill&bill_num=SB00856&which_year=2021

Stakeholders may also submit written comments for consideration by submitting them to the Executive Secretary at ExecutiveSecretaryCTEEB@theenergygroup.biz by 5:00PM July 15. Stakeholders do not need to attend the Public Input Session, nor do they need to provide their comments during the Public Input Session, for comments to be considered.

The EEB looks forward to hearing from you during the Public Input Sessions. If you have any questions, please contact the Executive Secretary, Emily Rice.

Sincerely,

A handwritten signature in black ink, appearing to read "Neil Beup". The signature is written in a cursive style with a large initial "N" and a long, sweeping underline.

Neil Beup
Chair, Connecticut Energy Efficiency Board

About the Connecticut C&LM Plan

The Connecticut C&LM Plan promotes efficient energy use, helps residents and businesses save on their electric and natural gas bills, advances economic development, reduces electric demand, and helps reduce air pollution. C&LM Plan programs serve residential customers, including limited-and fixed-income customers, as well as business and municipal customers. Connecticut's energy efficiency programs are funded by a charge on customers' utility bills and administered by the state's electric and gas utilities including: Eversource (previously Connecticut Light and Power and Yankee Gas), The United Illuminating Company, Connecticut Natural Gas, and Southern Connecticut Gas. Additional information on Connecticut's energy efficiency programs can be found at EnergizeCT.com or by calling 1-877-WISE-USE. C&LM Plan program activities and results may be viewed at: <http://www.energizect.com/connecticut-energy-efficiency-board/about-energy-efficiency-board/annualreports>.

About Energize Connecticut

Energize Connecticut helps you save money and use clean energy. It is an initiative of the Connecticut C&LM Plan, the Connecticut Green Bank, the State, Eversource, UI, SCG and CNG, with funding from a charge on customer energy bills.
