

Residential New Construction 2023 Project Application

ENERGIZE CONNECTICUTSM

INSTRUCTIONS:

- The Residential New Construction (RNC) program is available to customers building a home or significant rehabilitation project within the residential service territory of United Illuminating, Southern Connecticut Gas and Connecticut Natural Gas (collectively, "UIL"), subsidiaries of AVANGRID, Inc., and The Connecticut Light and Power Company and Yankee Gas Services Company, both doing business as Eversource Energy ("Eversource" and with UIL, "Utilities"). To apply, the Applicant must first fill out the project contacts and project information below. Then, with guidance from the Applicant's hired Home Energy Rating System (HERS) Rater, review the section "HERS Rating Path" to determine the HERS tier for which the project will be eligible. A certified Home Energy Rating System (HERS) Rater must be contracted by the Applicant. A list of HERS Raters and a description of what is included in their services can be found within the Residential New Construction portion of **EnergizeCT.com**
- Please complete the **INITIAL PLAN** sections, sign the **ACCEPTANCE OF AGREEMENT** section on the second page of this form, and submit to the applicable Utility indicated at the bottom of this page.
PRIOR TO INSULATING THE HOME. If natural gas will be used as a heating source for the project, please also send the completed application form to the applicable natural gas company Utility as indicated at the bottom of this page. For multifamily/multi-unit projects, only one application is necessary for groups of units with similar characteristics.
FILLING OUT THIS FORM DOES NOT AUTOMATICALLY QUALIFY YOU FOR THE RESIDENTIAL NEW CONSTRUCTION PROGRAM.
- Upon submitting the application, the Utilities will review the application and sign it if the requirements have been met. If they have not or if additional upgrades can be made, the Utility will contact the Applicant to discuss all options. The Applicant is not bound to the initial specifications; however, any changes are still subject to the minimum requirements listed on this application.
- Once the home is complete and a final inspection has been completed by a HERS Rater, the Applicant and HERS Rater are responsible for submitting the "As Built" required paperwork within two months of completion or the rebate will be forfeited. A HERS Rater may submit the Application on behalf of the Applicant. Once all paperwork has been submitted and the package has been reviewed by the Utility, the payment may be processed and paid **TO THE APPLICANT** by UIL and/or Eversource (Applicant might receive separate checks from each Utility). Please review the 2023 Residential New Construction Program Requirements and Submission Checklist document for a full listing of required documentation.

NOTE: RNC projects where residents meet state limited income eligibility requirements (60% state median income) will receive an additional 25% bonus rebate for all qualifying measures on this application.

***Effective July 1, 2023 all new construction projects must be all-electric.**

Residential New Construction 2023 Project Application

ENERGIZE CONNECTICUTSM

Residential New Construction Rebate Paths

Below is the rebate path for which the Connecticut Utilities will provide rebates on residential new construction or significant rehabilitation projects. In order to participate, the Applicant, at their own expense, must hire the services of a HERS Rater to complete the necessary energy modeling inspections and testing of the home. A list of certified HERS Raters can be found at EnergizeCT.com

Check the boxes below to indicate which track the home will follow and fill out the initial plan section:

<input type="checkbox"/> HERS Rating Path <input type="checkbox"/> High Performance Certification Bonus Rebate	Initial Plan (Before Construction)		As-Built (Post Construction)	
	HERS Index (as Designed)		HERS Index (as Built):	
	Applicant Rebate	\$	Applicant Rebate	\$

HERS Rating Path*

Tier	HERS Index	Single Family Applicant Rebate	Single Family Attached Applicant Rebate	Multifamily Applicant Rebate
Tier 1	51-55	\$3,000	\$2,000	\$1,500
Tier 2**	41-50	\$4,000	\$2,500	\$2,000
Tier 3**	0-40	\$4,500 plus \$50 per point below***	\$3,000 plus \$40 per point below***	\$2,500 plus \$25 per point below***
Tier 4**	0	\$6,500	\$4,600	\$3,500

Bonus Incentives

All-Electric Home & High Performance Certification Bonus Incentives

All-Electric Home Incentive

Requirements	Tier	Single Family Applicant Rebate	Single Family Attached Applicant Rebate	Multifamily Applicant Rebate
1. Projects pursuing the All-Electric Home incentive must be built to the specifications indicated on the All-Electric Home Specification form. 2. All-Electric Home incentive capped at \$500,000.	<input type="checkbox"/> Tier 1	\$7,500	\$3,000	\$1,500
	<input type="checkbox"/> Tier 2	\$10,000	\$5,000	\$2,500

Partial Electrification / Heat Pump Adder Incentive

Requirements	CEE Tier/ENERGY STAR®	Single Family Applicant Rebate	Single Family Attached Applicant Rebate	Multifamily Applicant Rebate
1. Homes which do not meet the requirements of the All-Electric Home Incentive may qualify for an additional heat pump incentive where primary or secondary heating system is air source or ground source heat pump. 2. Air source heat pump systems must meet Consortium for Energy Efficiency (CEE) Tier 1 or Tier 2 specifications, and ground source heat pumps must meet current ENERGY STAR certified requirements.	CEE Tier 1 (Air Source)	\$250/Ton (\$1,000 Cap/Unit)	\$125/Ton (\$500 Cap/Unit)	\$125/Ton (\$500 Cap/Unit)
	CEE Tier 2 (Air Source) ENERGY STAR (Ground Source)	\$500/Ton (\$2,000 Cap/Unit)	\$250/Ton (\$1,000 Cap/Unit)	\$250/Ton (\$1,000 Cap/Unit)

High Performance Certification Rebate Chart

Requirements	Qualifying Criteria (Please check all that apply)	Single Family Applicant Rebate	Single Family Attached Applicant Rebate	Multifamily Applicant Rebate
1. Additional energy modeling and design incentives available for Single Family Attached and Multifamily Passive House projects with 5 or more units. Please refer to Passive House Incentives form. 2. Must provide all proper documentation for certification. 3. Passive House Certification Bonus Project cap is 60,000; All Other Certification Bonus Project Caps limited to \$20,000. 4. Rebate is available for up to a maximum of two certifications per home. 5. All projects must provide HERS Rating documentation from HERS Rating Path participation, above.	<input type="checkbox"/> Passive House*	\$1,000	\$1,500	\$1,500
	<input type="checkbox"/> DOE Zero Energy Ready Home	\$750	\$500	\$500
	<input type="checkbox"/> LEED for Homes	\$500	\$250	\$250
	<input type="checkbox"/> NGBS Silver	\$500	\$250	\$250
	<input type="checkbox"/> ENERGY STAR	\$500	\$250	\$250

*Living Building Challenge projects will also be considered for additional incentives under Passive House incentive on a project-by-project basis. Consult with Utility Program Administrator on these projects.

**Homes applying/qualified for Tier 2, and 3 HERS Rating must meet the 2023 Zero Energy Ready Home PV-Ready Checklist (Connecticut Version). Details are listed on the "2023 Residential New Construction Program Requirements and Submission Checklist".

***The Rebates for \$50, \$40 and \$25 per point below are capped at a HERS zero and are only for homes that achieve a HERS 50 index before renewables are added to the project.

Summary of Rebates: Total for Entire Project

Measures	Initial Plan	Estimated Total	As-Built	Installed Total
HERS Rating	Applicant Rebate	\$	Applicant Rebate	\$
Additional Project Incentives	Applicant Rebate	\$	Applicant Rebate	\$
	Estimated Total (For the Entire Project)	\$	Estimated Total (For the Entire Project)	\$

TERMS AND CONDITIONS

These Terms and Conditions are a part of the Project Application for the project listed on this application. Project Application must be submitted prior to completion of home. Necessary inspection may be conducted when measures have been installed.

Acceptance of Agreement

A signature by all parties indicates that the Applicant’s information has been received and that the characteristics listed on the application either meet the RNC program’s requirements for the specific rebates for which the Applicant is applying or have been discussed by the Utilities and Applicant. The initial signatures do not bind the Applicant to participate in the program. The signature by the property owner (if not the Applicant) ensures that he/she is aware that the builder, vendor, or other third party is participating in this rebate program and will receive the rebate payment should they meet the necessary criteria. He/she is also aware that a second application may not be submitted for the same property. This application expires two years from the date of approval by the Utility Program Administrator.

Applicant Signature (required):	Print Name:	Date:
Utility Signature (required):	Print Name:	Date:
Homeowner (if not applicant) Signature (required):	Print Name:	Date:
HERS Rater Signature (required):	Print Name:	Date:

Applications must be signed by the Utilities regardless of the electrical and natural gas service territory the project will be located within. This Project Application is in effect for 2 years following the date of acceptance of the Project Application by Eversource/UIIL. All homes must be completed and ready for inspection within 2 years of the date of acceptance to be eligible to receive any rebates on this application. Any homes not completed within 2 years of the date of acceptance by the Project Application by Eversource/UIIL may be subject to changes in the program. Applicants in the Residential New Construction Program may not apply for any additional rebates through the Energize CT residential programs as part of the same home construction which include, but are not limited to, the Upstream HVAC/water heating instant discount program at participating equipment distributors and retailers statewide.

The Builder/Homeowner agrees to allow Eversource/UIIL and its agents access to the project for the purpose of conducting a Project Inspection(s) to confirm the home(s) has/have been constructed with all of the energy-saving characteristics, materials, and equipment listed on the Project Agreement Form(s). All measures must be installed in order to qualify for rebate.

The HERS Rater represents that the project meets all of the national requirements associated with RESNET® approved HERS Rating or the respective certification (ENERGY STAR®, LEED, Passive House, NGBS, DOE Zero Energy Ready) that the project is achieving. The HERS Rater represents that the information in the final HERS Rating file is accurate to the As-built condition of the home. The HERS Rater for the project must be on the CT Residential New Construction Program list of Certified HERS Raters, or must be listed on the Energize CT or the utility company websites.

If a HERS Rater submits information in the final HERS Rating file that does not accurately represent the as-built conditions of the home, the RNC Program will remove the HERS rating company from the List of Certified HERS Raters in the RNC Program and the HERS rating company will no longer be able to perform HERS ratings through the RNC Program.

Copies of all receipts with equipment make, model, and size documenting the installation of the equipment once the project is complete must be submitted. Equipment includes insulation, HVAC and geothermal machines, and hot water heaters. Rebates will not be paid until all appropriate paperwork has been submitted. In the case of HERS rated homes, an electronic HERS Rating file and HERC must be submitted. Please see the “2023 Residential New Construction Program Requirements and Submission Checklist” for a full list of requirements.

The payment of the rebates shown on the Project Application is contingent upon the home(s) being constructed with all of the energy saving characteristics, materials, and equipment listed in the “As Built” portion of the Project Application form(s). Rebates are subject to change at any time without notice. It is the responsibility of the applicant to select and pay the services for a certified HERS Rater.

Applicant understands that all funding for rebates under this program derives from the Energy Efficiency Fund which is managed, in part, by Eversource and UIL and funded, in part, by their customers. Neither Eversource nor UIL guarantees the availability of funding for this program and neither is responsible for any costs or damages incurred by applicant if funding for this program or the Energy Efficiency Fund is reduced or eliminated by the State of Connecticut, the Public Utilities Regulatory Authority or other State of Connecticut action. Funding is subject to change at any time without notice.

Eversource/UIIL assumes that the signed applicant is the party to be paid, and therefore will make the check payable to him/her. Only one payment will be issued for qualifying rebate for a given unit. A W-9 Form must be submitted at time of application indicating who the payment will be made out to. Builders/owners/vendors will not be permitted to apply separately for the same rebate. These rebates may not be combined with any other utility or energy service offer.

FORWARD CAPACITY MARKET AND CLASS III CREDITS:

ISO-NE CAPACITY PAYMENTS: By signing this document, and as a condition to receiving a rebate pursuant to this program, the customer acknowledges and agrees that any and all payments, benefits and/or credits associated with or applicable to the customer’s participation in the program that is the subject of this Agreement in connection with the ISO New England, Inc. Forward Capacity Market (“FCM”) or any existing, successor or replacement markets, (including, but not limited to, any and all transitional FCM credits or payments or any and all other capacity-related credits, payments and/or benefits for which such customer is eligible) shall be deemed as and for capacity payments, credits and/or benefits of Eversource Energy (Eversource) or United Illuminating (UI), as applicable. The customer hereby assigns to Eversource or UIL, as applicable, all of its right, title and interest in and to any and all such capacity payments, credits and/or benefits, and agrees to take any and all action, including executing and delivering any and all documentation and/or instruments, as requested by Eversource or UI, as applicable, to evidence the same. FCM means the market for procuring capacity pursuant to ISO-NE Tariff, FERC Electric Tariff No. 3, Section III, Market Rule 1, Section 13, any modifications to the FCM, or any successor or replacement market/capacity procurement process.

Any Class III renewable energy credits and/or conservation credits received in connection with this program shall be retained by the Companies pursuant to the laws of the State of Connecticut and/or applicable PURA decision in effect as of the date hereof.
