Integrated control model number*

Clear label for rebate**
Include exact values; check the QPL!

Notes

- Oil boiler will remain in place to be used as a back up for the heat pump. Projected balance point is 8F.
- This system may be eligible for a federal tax credit of 30% of the project cost up to \$2,000.

***Only required for heating zones where a pre-existing boiler or furnace will remain in use. If pre-existing heating system will be removed or disconnected, this must be noted on the invoice.**

****Contractors may choose to offer the Energy Optimization rebate at the point of sale or as a mail-in rebate. If that is the case, the rebate must be listed as a line item on the invoice subtracted from the total. ACH payment is available.**
