

Connecticut Energy Efficiency Board

2024 Public Input Session and Request for Written Comment

Development of the 2025-2027 C&LM Plan – Second Draft

<p>Wednesday, September 4, 2024 12:00PM – 1:00PM EST</p>
<p>Virtual Zoom Meeting Link Meeting ID: 845 4236 2211 Passcode: 351325 +1 (305) 224- 1968 Registration Link</p>

The Connecticut Energy Efficiency Board (EEB) invites you to participate in the upcoming public input session (virtual only) focusing on the development of the 2025-2027 Conservation and Load Management (C&LM) Plan. The September 4th session will focus on feedback related to the “[Second Draft of the 2025-2027 C&LM Plan \(v. 8/7/24\)](#)”. A subsequent session will be noticed once the Third Draft is released. The EEB will be voting on the budget and savings tables included in the Plan during the September 11, 2024 EEB Meeting and on the overall Plan at the October 9, 2024 EEB Meeting. For historical context, the summary table below provides a chronology of past public input opportunities pertaining to the ongoing Plan development process:

Date	Description of Past Public Input Opportunities
July 15, 2024	Request for Written Comments on First Draft of the C&LM Plan (v. 6/21/24)
May 14, 2024	Public Input Session and Request for Written Comments on C&LM Plan Outline
April 3, 2024 March 26, 2024	Public Input Sessions and Request or Written Comments on C&LM Plan Priorities

Established through CGS 16-245m, the EEB is comprised of 12 voting members representing business and consumer interests as well as state agencies, and five non-voting representatives of the state’s electric and gas utilities. It advises and assists the utilities in the development and implementation of Connecticut’s energy efficiency and demand response plans.

The EEB and DEEP welcome and encourage input as part of the collaborative process with the electric and gas utility companies, the CT Green Bank, interested stakeholders and the public to develop the 2025-2027 Plan. Public input will inform the EEB and DEEP on updates to the next

3-year Plan that will take effect in 2025. The current 2022-2024 Plan and related information may be found online at: <https://energizect.com/eeb-clm-plans>.

Attendees need not register. **In order to facilitate the meeting and ensure enough time for participants, those wishing to provide comments during this session are strongly encouraged to pre-register by emailing the Executive Secretary at EEB_Secretary@EnergizeCT.com at least 3 days prior to the meeting.**

Please include your name, company, and electronic copies of your remarks, and/or a PowerPoint presentation if you plan to use one. A record of public input becomes part of the 2025-2027 Plan itself. Therefore, it is important that commenters provide written input, preferably in advance of the session. Presentations during the Public Input Session should be no longer than seven minutes.

Stakeholders may also submit written comments for consideration by submitting them to the Executive Secretary at EEB_Secretary@EnergizeCT.com by **September 4th**. Stakeholders do not need to attend the Public Input Session, nor do they need to provide their comments during the Public Input Session, for comments to be considered.

The EEB looks forward to hearing from you during the Public Input Session. If you have any questions, please contact the Executive Secretary, James Williamson.

Sincerely,

A handwritten signature in black ink, appearing to read "Anthony Kosior". The signature is fluid and cursive, with the first name being more prominent.

Anthony Kosior
Chair, Connecticut Energy Efficiency Board

About the Connecticut C&LM Plan

The Connecticut C&LM Plan promotes efficient energy use, helps residents and businesses save on their electric and natural gas bills, advances economic development, reduces electric demand, and helps reduce air pollution. C&LM Plan programs serve residential customers, including limited-and fixed-income customers, as well as business and municipal customers. Connecticut's energy efficiency programs are funded by a charge on customers' utility bills and administered by the state's electric and gas utilities including: Eversource (previously Connecticut Light and Power and Yankee Gas), The United Illuminating Company, Connecticut Natural Gas, and Southern Connecticut Gas. Additional information on Connecticut's energy efficiency programs can be found at [EnergizeCT.com](http://www.energizect.com) or by calling 1-877-WISE-USE. C&LM Plan program activities and results may be viewed at: <http://www.energizect.com/connecticut-energy-efficiency-board/about-energy-efficiency-board/annualreports>.

About Energize Connecticut

Energize Connecticut helps you save money and use clean energy. It is an initiative of the Connecticut C&LM Plan, the Connecticut Green Bank, the State, Eversource, UI, SCG and CNG, with funding from a charge on customer energy bills.
