

# Energy Studies

for Commercial, Industrial and Municipal Customers

Eversource provides solutions and technical support to help customers save energy, lower costs and reduce greenhouse gas emissions.

Explore our available energy studies to get started.

Do you need help knowing where to start your efficiency journey?

## Eversource Contribution

**100% of the cost** of the study, up to \$3,500.

### **A Scoping Study may be right for you.**

An Eversource-preferred vendor will conduct a high-level energy efficiency audit of your building, focusing on your goals or areas of interest. Scoping Studies are a holistic assessment of a building's energy savings opportunities.

Do you have a specific energy efficiency measure in mind and want to explore potential energy and cost savings?

## Eversource Contribution

**50% of the cost**, with the potential for reimbursement of the customer's co-pay, after measures are implemented.

### **A Focus Study may be right for you.**

An Eversource-preferred vendor will conduct an in-depth analysis of the energy efficiency measure, and will provide a detailed energy and cost savings estimate report, as well as a path towards potential incentives.

Common measures include: steam traps, compressed air, pipe insulation, building envelope, and complex HVAC measures. Focus Studies are also available for electrification initiatives.

Do you want to electrify your building and reduce the use of fossil fuels?

## Eversource Contribution

**100% of the cost**, up to \$5,000 per building.\*

### **An Electrification Scoping Study may be right for you.**

An Eversource-preferred vendor will provide a no-cost, high level study that identifies opportunities for electrification and decarbonization.

\* Certain restrictions may apply
