The UIL team has reviewed the R1965/R2027 HP /HPWH Evaluation and we do not have any comments. Beyond those provided by Eversource.

UIL does have one observation; we don't think they are accurately depicting the geothermal market in CT. In 2021 we saw a jump in the amount of rebates. We don't think it will be booming but it will not be "contracting".

Internal Use

Subject: EXTERNAL:CT - Reminder that comments on R1965 are due today.
Importance: High

We have to have a pretty hard stop deadline as we want to have results in the TRM process...
